

xP1000

Medium-Heavy Range

Productivity (m3 in 8 hours)

Hard rock, Compact basalt, Limestone.
100min / 290max

Medium-hard rock, Slate, Non-omogeneous granite.
140min / 370max

Concrete non reinforced stratified limestone, tuff.
210min / 510max

Technical Specification

Working weight	1000 Kgs
Carrier's weight min/max	12/18 ton
Total height	2300 mm
Tool diameter	110 mm
Useful length of standard tools	550 mm
Oil flow min/max	100/130 l/min
Working pressure min/max	165/175 bar
Blows per minute	339/718 1/min
Impact energy	4496 joule

Size Compatibility

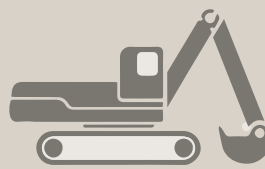

MINI LOADER

BACKHOE LOADER

COMPACT EXCAVATOR

CRAWLER EXCAVATOR

WHEELED EXCAVATOR
